

Guidelines for EDIFACT-Delfor

Previous revisions:

07.05.1998 NAD segment (for address of buyer), field 3039 Party id. Identification. In future, MTU's customer number at the relevant supplier appears here (if applicable).

30.04.1999 LIN segment: In future, the value 3 (changed), i.e. delivery call-up new replaces delivery call-up old, appears in element 1229.

NAD(BY) segment: In future, the value 91 (assigned by seller or seller's agent) appears in element 3055 as a supplement to element 3039 which was already in use (customer number at supplier's).

NAD(CN) segment: In future, the value 92 (assigned by buyer or buyer's agent) appears in element 3055 as a supplement to element 3039 which was already in use (customer's works designation).

Changes to delivery addresses for MTU Friedrichshafen: The values in the NAD(CN) segment change (see page following description of NAD(CN) segment).

28.01.2000 Changes to delivery points

23.04.2002 Changes to delivery points

01.08.2003 Revision due to introduction of SAP

- Change of structure
RFF-/DTM segment re. drawing no. deleted
All COM-/CTA segments are deleted
- Structure of order number (RFF) is changed
- Structure of supplier number is changed
The addition of the prefix "21" now makes this an 8-digit number
Example: 098765 becomes 21098765 (NAD and UNB)
- More delivery points

30.07.2004 Changes to delivery points

03.08.2005 Extension delivery points (9B, 9C, 9D, 9E)

No more restriction on max 5 dates of delivery

10.01.2006 New delivery point (9F)
