

New Part Labels:

All new parts or parts that have undergone an engineering change must be supplied to Visteon with a specific NEW PART label for the first five shipments. This is to flag to the receiving Plant of a change in parts but also to allow the Plant to check the production packaging is in line with the V1121 submission.

The New Part label is in addition to the normal shipping label and should be laid out as the example below – black lettering on a fluorescent A5 sheet:

MODEL:	C214	NEW PART
PART-NR.	1S7H 8C357 AF	
PART-NAME.	Rad. + Cond. Module	
ENG. CH. NR.	EN01E11318933 000	
SUPPLIER	Basildon LB (0114A)	
I.S.I.R.	PSW /PPAP Reference	
SHIP DATE	01/12/2003	
COL. MARK	Slate Grey	

 July 2001 EU3441BV

A template for this label can be downloaded from the Visteon Supplier website, www.visteonsupplier.com from the ‘Supply Chain’ section using “visteon” as the user name and “supplier” as the password.

Shipments should conform to this process from 1st January 2004 onwards.

(This page will be added to the Packaging Guidelines when updated 1st Quarter 2004)
